

BILSON DOOR

Pre-Assembled Exterior Door - Engineered for the Modular Industry

KERF FRAME

The 16GA Kerf Frame is specially designed to hold weather stripping in place without screws or adhesive. This creates a tight seal - keeping out water, air, and debris.

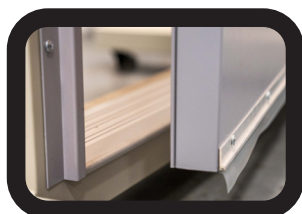

PREP

All doors prepped for 161 lever and either Invisible Deadbolt (IDB) or Bored Deadbolt Prep (DB).

SWEEP & THRESHOLD

36 inch sweep paired with an ADA saddle threshold.

LITE KIT

A variety of options including no lite kit, 12 x 12, 8 x 32, or a custom size to fit your needs.

POWDER COAT FINISH

Powder coating provides a high-quality, durable finish that resists scratching, flaking, and fading. It also offers a smooth surface that's easy to repaint if needed.

PDQ HINGES

Standard 4.5 x 4.5 inch BB NRP hinges - Made from corrosion-resistant materials.
